STOCK AVAILABILITY

All products carried by SAKSCO are available either Year Round or on a Limited basis. You can see the availability status of each product in this catalog under pricing information.

Year Round: Generally this includes all products that are shelf stable and can be replenished in a relatively short period of time. This includes most of the items obtained from USA or Canada with extended shelf life. We are committed to carrying these products through out the year.

Limited: This includes products that are ordered only once a year, such as items imported from Europe or Far East-once an item is sold out, it will not be available until next year. Other items in this category will include products with short shelf life or seasonal items.

If you are making a presentation or planning to print a brochure or catalog, it is always safer to include products that are available Year Round.

Products with Limited availability are available during Fall but you should buy as early in the Season as possible to ensure availability.

Top Quality Products with Elegant Packaging at Reasonable Prices

COMFORT COLLECTION

SNACKTALES

Comfort Collection and Snacktales is your symbol of quality, elegance and style. Saksco developed these product lines to meet the specific needs of the gift basket trade.

Starting off with high quality products partnering with famous brand names in United States, Canada, Europe, and developing a package that meets your requirements of color, size and price point.

So, when you select Comfort Collection or Snacktales for your basket, rest assured you are offering customers high quality products with attractive packaging. You can make your full margin as these products will not be available at supermarkets, pharmacies or discounters. Remember, we always have an unconditional guarantee with everything we sell.

BASKET BASES

Introducing a New Way to Fill the Bottom of Your Basket

Basket Bases are superior, practical, environmentally friendly time savers. They allow you to build your baskets quickly and conveniently on a sturdy base. Most people use one of the following three ways to fill a basket:

1. Styrofoam Peanuts

- They are bulky and take space in your work space/home
- Not environmentally friendly
- Not recipient friendly and they fly all over
- Difficult to dispose
- No back support

2. Newsprint/Newspaper

- Time consuming to use
- Can be costly
- Will sink after product is placed
- No back support

3. Tissue, Shred, Excelsior

- Costly and bulky
- Will sink after product is placed
- No back support

Use Basket Bases Instead! Here's why:

- Perfect or near perfect fit for Saksco baskets
- Made of sturdy cardboard, will not sink with products (including bottles)
- Provide back support
- Store flat to take up less storage space
- Great time and labor savers
- Dark brown, work well with all colours.

BASKET BASES

Check our basket listings for appropriate size. For instructions (with pictures) on how to assemble the bases, visit the basket base product pages on our website, www.saksco.com. All bases are tested by us to ensure an excellent fit.

Basket Bags

NEW

You would never want to use a weak bag and run the risk of the whole basket falling apart. That's why we carry the strongest bag in the industry with a thickness of 40 microns. It's extremely handy and saves you time during the busy season.

Strong bags with 30 mic thickness. Ideal for gift baskets, will not tear or split at the seams. Our bags are also extra long and give a nice puff.

		Size	$/unit	$/Case
ABB305	X-Small 25/cs	(16" x 30")	0.30	7.50
ABB310	Small 25/cs	(19" x 30")	0.35	8.75
ABB320	Medium 25/cs	(25" x 35")	0.50	12.50
ABB330	Large 25/cs	(33" x 35")	0.65	16.25

Availability: Year Round

What Is The Right Size Of Bag You Need?

For all baskets in our catalogue, refer to the bag recommended under each basket. For other baskets, you can calculate the appropriate size as follows: measure the largest circumference, divide it by 2 and choose a bag that is larger than this number. For example, if the largest circumference is 48" then you should select 25" width bag (48 divided by 2 equals 24 and size bigger than 24 will be 25" bag).

Three Ways To Save Time & Labor During The Busy Season

Time is precious during the busy Christmas and other Gift Giving Seasons.
Allow us to suggest three ways you can save some time and labor:

BASKET BAGS

Truly a God send to Basket makers. Use pre-made bags instead of cellophane rolls to wrap your baskets. Choose the appropriate size from the several sizes available at Saksco, then simply drop the basket into the bag and gather up the top into a pouf and tape the 'dog ears' under the basket. Voila! You are done. Beats measuring and figuring, cutting and sealing yards of cello rolls. The extra pennies are worth the time saved. (see next page)

GLUE DOTS

The best invention since the TV remote! What did we do before it? Available in a roll of 2000. (see-right)

BASKET BASES

We at Saksco pride ourselves in coming up with this unique and easy device to fill the base of your container by simply fitting one of the basket bases into it! Forget the time consuming newspaper balls, or the messy Styrofoam peanuts or the "unkind to-your hands" wood shavings. Basket bases are an excellent replacements for all of these and further more are space saving (they collapse) and environmentally friendly. We have designed two types of Basket Bases—an oval and a round that fit most baskets and containers. (see top-right)

GLUE DOTS

New revolutionary glue dots. Hold products in place without damaging the labels/boxes. Non-Toxic, Acid-Free, Meet FDA requirements for indirect food contact. Faster and safer than hot glue guns. Do not leave any sticky residue like tape.
